2026 Subject Index

Title	Page
A new scheme for risk stratification of pregnancy complicated by fetal anomalies	22
A review of the management of prenatally detected fetal anomalies: the need for structured evaluation and a multidisciplinary approach	47
Acquired jejunal atresia in a neonate after repair of ileal atresia: a case report	100
Anesthesia management of an infant with laryngomalacia	57
Beyond fecal diversion: stoma-related morbidity in a cohort of 318 children	149
Chronic ventriculoperitoneal shunt-related costal destruction: a rare case report	97
Chylous ascites as a diagnostic surprise during inguinal hernia surgery: a case report and review of literature	30
Clinical outcomes after kasai portoenterostomy in biliary atresia: role of early surgery and liver surface telangiectasia in a resource-limited setting	38
Comparison between topical timolol and oral propranolol for the treatment of superficial infantile hemangioma	107
Comparison of short-chain fatty acid (SCFA) patterns in children with and without Hirschsprung's disease	43
Congenital trifid tongue with macroglossia: a rare orofacial anomaly	61
Cytochrome C in in vitro fertilization: a promising tool for distinguishing spent embryo culture fluids of normoresponder, diminished ovarian reserve, and polycystic ovarian syndrome	12
Delayed diagnosis of distal urethral stricture after hypospadias repair in a child: the critical role of physical examination in preventing irreversible renal damage	54
Delayed recognition of perineal ectopic testis in a pediatric patient: diagnostic and surgical implications of a rare cryptorchidism varian	27
Emerging advances in the utility of gabapentinoids for postoperative pain management	35
Erratum to "Surgical results in cases of osteoid osteoma: a single-center retrospective study"	37
Evaluation of the Pan-Immune-Inflammation Value (PIV) as a prognostic and surgical decision-making marker in necrotising enterocolitis	126
Fecal secretory immunoglobulin A (sIgA) levels in hirschsprung patients and normal children: a preliminary study	77
Identification of low-risk pediatric patients with suspected acute appendicitis using the alvarado score: a diagnostic accuracy study	82
Imperforate anus with recto penile fistula: surgical experience with anterior sagittal approach and systematic review of literature	88
Interdisciplinary management of children with cerebral palsy: neurological perspective on neurosurgical interfaces	121
Intrathyroidal ectopic thymus in childhood: ultrasound features for accurate diagnosis	16
Iodine nutrition, bamboo shoot consumption, thiocyanate exposure, thyroid function, weight and height, and associations among them in the tribal children of Tripura, North-east India	139
microRNAs (miRNAs) targeting oxidant-antioxidant mechanisms in primary ciliary dyskinesia and cystic fibrosis: epigenetic insights into therapeutic biomarkers	69

Outcomes GUD (glandurethral disassembly) in distal penile hypospedias repair	7
Pediatric supernumerary testis: preservation, orchiopexy, or orchiectomy?	155
Primary anastomosis with or without T-tube enterostomy in jejuno-ileal atresia - a comparative study	71
Progressively worsening headache due to arachnoid cyst in a teenager: a case report	103
Silent damage: asymptomatic jejuno-cecal fistula following multiple magnet ingestion in a child	65
The importance of perineal examination: a case report	94
The potential of AI applications to providing clinical counseling to parents: a pilot study	133
Variability of histologic pattern and transition zone length in Hirschsprung disease and associated factors	113
Views of anaesthesia technicians in Turkiye on paediatric anaesthesia: a survey study	1
